

Team Meeting 11.29.23

WHEN: Wednesday, November 29th @ 6:30 pm

PURPOSE: Discuss project deliverables, work on project implementation

ATTENDANCE: Ted Athon, Jaiden Green (absent), Marcos Lepage, Dylan O'Brien, Amrit Sian, Andrew Ward (absent)

- Implemented PEMDAS (and Modulo) operators for the arithmetic expression evaluator.
- Worked on abstract Operator classes including a Unary Operator class and Binary Operator class.
- Discussed additional implementation details such as error handling, etc.
- Split up group members to finish working on the implementation, while others started generating test cases and creating user manual.
- Committed and pushed all work.
