

Team Meeting 11.30.23

WHEN: Thursday, November 30th @ 4:00 pm

PURPOSE: Discuss project deliverables, finalize project implementation, and work on test cases and user's manual document.

ATTENDANCE: Ted Athon, Jaiden Green (absent), Marcos Lepage, Dylan O'Brien, Amrit Sian, Andrew Ward

- We got a working arithmetic expression evaluator and began testing our program with various test cases.
- Addressed potential errors that may be expected to be handled within the program.
- Added test cases regarding valid expressions and invalid expressions verifying each result.
- Ensured proper error messages when encountering an invalid expression.
- Discussed the design of the user's manual for an intuitive and user-friendly approach.
- Clarified expectations for the final steps of the project.
